24 August 2009

Dear Mrs Gardner.

EG/65/08

It is expected that building work on this approved planning site will commence in the near future.

There is a problem on the western boundary of the building site where a mature Copper Beech tree, (whose trunk is in Clavendon House), extends some seventy eight metres over the site.

As we are in an area with protected trees we consulted Mr Martin Evason of Parks & Gardens who visited the site on the 17th August and considered that the problem could be solved by removing several lower branches and raising the crown of the tree.

Our neighbours in Clavendon House, Mr & Mrs T. Lewis have no objection to this treatment.

After discussion with one of your colleagues on the ARUN DIRECT CONTACT line, I understand that there would be no objection to this action.

Yours Sincerely

As requested by your colleague I have asked my neighbours to append their Signature to this letter to confirm their approval.

Agreed in full -

24.08.09
