Subject: planning application at Barnham

Dear Sir,

I would like to give my wholehearted support to the Micro Pub planning application at Barnham - EG / 43 / 18 / PL

I have visited Micro Pubs up and down the country and they are always very well run businesses. Operated by the owner backed up by properly trained and friendly staff. They always major on Real Ale and Real Cider with some bottles of English Wines. Lager and jaeger bombs etc are not sold. Also there is a complete absence of pool tables, dart boards and electronic games and fruit machines. Micro Pubs cater for the older and more mature drinker with board games, newspapers and interesting books to read. Because of the smallness of the pubs – conversation is encouraged not only between friends but also casual visitors to the pub. It's also a well-known fact that 95% of Real Ale drinkers are non-smokers meaning that (a) there is no fear of drinkers congregating outside the pub causing a possible nuisance and (b) no unsightly fag butts littering the exterior. I think a Micro Pub would be a great benefit to Barnham complimenting the existing businesses very well.

If, as I hope the planning application gets the go ahead I will certainly be visiting this Micro Pub.

Max Malkin – Bognor Regis
