Subject: RE: EG/57/16/PL - Land adjacent to the Croft Practice

Simon

Please find attached revised versions of two application plans. These have been updated, initially in relation to the oak tree, and then in relation to transport matters. These should overcome the concerns of the tree officer in respect of the oak without consequential transport impacts. Can you substitute them for the previous versions of the plans?

I will obtain updated landscaping plans as well as an update on arboriculture. Do you need anything else?

Regards

Jonathan
