Subject: RE: EG/57/16/PL - Land adjacent to the Croft Practice

Simon

Please see attached the amended landscape drawings along with an Arboricultural Impact Assessment and Method Statement in relation to the above application. The landscaping plans reconcile the proposed landscaping scheme with the changes to the layout; the arboricultural report provides an assessment of the tree and the approach to the protection of it.

Please can you forward it to your Tree Officer and seek his confirmation that this final issue has now been resolved?
