Appearance

The Building is made up of red bricks facades to each elevation, other than the East facing façade which has been painted.

Appraising the Context

Assessment:

The proposals adequately comply with the provisions of the planning policies for this area and do not impact or harm the settings that the site is within. We feel that the proposed works do not have any detrimental impact on the building or surrounding area. These condensers are necessary for the continued survival of such an important building in the locality of Eastergate.
