POLICY CONTEXT

Designation applicable to site:

Within built up area boundary

DEVELOPMENT PLAN POLICIES

[Arun District Local Plan 2003:](#) GEN7

The Form of New Development

PLANNING POLICY GUIDANCE

NPPF

National Planning Policy Framework

POLICY COMMENTARY

The above policies combine to describe the criteria against which the application will be assessed particularly with regard to visual and residential amenity.

DEVELOPMENT PLAN AND/OR LEGISLATIVE BACKGROUND

Section 38(6) of the Planning and Compulsory Purchase Act 2004 states:-

"If regard is to be had to the development plan for the purpose of any determination to be made under the planning Acts the determination must be made in accordance with the plan unless material considerations indicate otherwise."

The proposal is considered to comply with relevant Development Plan policies in that it would have no materially adverse effect on the visual amenities of the locality or the residential amenities of the adjoining properties, nor would it have an adverse impact upon the established character of the surrounding area.

OTHER MATERIAL CONSIDERATIONS

It is considered that there are no other material considerations to warrant a decision otherwise than in accordance with the Development Plan and/or legislative background.

CONCLUSIONS

This is a Regulation 3 planning application submitted to West Sussex County Council (WSCC) who will determine the application. Arun District Council is a consultee only for the application and it is not the role of Arun District Council to make a decision on the application.

The extension is single storey to reflect the low level scale of the entire site. The extension has a contemporary appearance using a palette of materials including wood and a green coloured render.

The proposal includes a curved design along the northern elevation. The proposed extension represents a departure from the existing modular design and will present an attractive addition to the building and will serve to preserve and enhance the character of the adjacent conservation area. There would be no adverse impact on visual amenity or the character of the area.

The closest residential property is to the north of Church Lane and given the educational use of the site as a whole, the distances involved and that the buildings are similar to others on site, it is not considered any materially adverse impact on residential amenity would result.

It is therefore recommended that no objections are raised to the proposal.
