Dear Mr Cooper,

I am afraid that the installation of the roof lights on the proposed extension although acceptable will require an application for a non-material amendment and cannot be agreed by e-mail. Condition 4 of planning permission for the surface water drainage will require an application for approval of details reserved by condition. Forms are available on the Council's website and the fee for a non material amendment is [REDACTED] a Discharge of Condition [REDACTED]

Regards

Janice Chapman
Planner

F.A.O. Mrs J Chapman,

I write with reference to our recent successful planning application ref: EG/68/12/.

I attached revised plans numbered 1019/05 rev B and elevations numbered 1019/06 rev A. The ceiling over the dining area has now been vaulted, as a result I have added two Velux's, the drawings have updated to reflect this. I assume this can be approved as a minor amendment over e-mail?

In accordance with condition 4 of the approval notice I submit drawings numbered 1019/10 & 11 which indicates the proposed drainage scheme. I have been in contact with Paul Cann about the proposals so he should be familiar with the scheme.

I look forward to hearing from you in due course.

Kind Regards
Adam Cooper
