SPECIFICATION:

Every piece of timber is pressure treated

Eaves Height Internal 70"

Ridge Height Internal 86"

4 x 6 - and above 2 windows

8 x 10 and above with truss roof which means NO SAGGING roof.

Extra strong framework with diagonal bracing for extra strength and durability which means no rocking or leaning shed.

Pressure treated Redwood timber cladding which means no treating against rot or insect attack every year! Stainless steel nails, which means no rusty marks.

Door 27" x 72" with 3 x 12" Galvanised Tee hinges.

2 x turn buttons one galvanised safety hasp and staple.

Roof construction: Tongue and groove roof with strong frame work and quality roofing felt. Double toughened fixed window. Economy sheds will come with ply roof & ply floor. Tongue and groove floor with floor beam that give a permanent dry air flow, every piece of timber is pressure treated. These sheds are the strongest on the market. We have sheds still in gardens that are 30 years old.
