Dear Richard,

Yes, I am happy for your to treat this email as additional information to the submitted application documentation. Of course, one point to note is that, originally this was an intensive beef rearing unit which would have generated significant HGV movements up and down the access track. This proposed storage use would generate far less traffic than historic levels of agricultural traffic which have used the track. A point that might be lost on the front house as they only moved in recently, long after agricultural use had ceased.

Kind regards,

Michael Gray

Dear Mr Gray,

Is it okay for us to accept the email from Mr Hughes as additional information for the

planning application, following highways comments?
