Dear Sirs

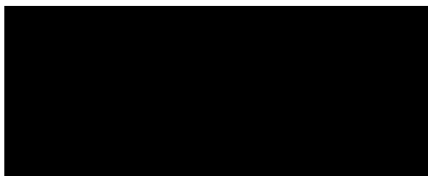

Application for Non-Material Amendment

Please find enclosed our application for non-material amendment. We would appreciate a quick decision as we are looking after our 98 year old mother and we are in desperate need of extra space. The builders have worked well and are now nearly at roof level and we are worried that this will stop the work.

The problem of the hip roof was highlighted by the builders when they went in search of the roof tiles, strange looking Delta concrete tiles, and also after a conversation with the Building Inspector who indicated that he would prefer a Gable Roof as it would match all the other bungalows in the row.

Thanking you in anticipation.

Yours faithfully

P G and M D Lynch
