FIELD MAPLE.

FOR CHRIS

98 ORCHARD WAY

BARNHART.

24 / 10 / 2017.

DEAR CHRIS,

AFTER A RECENT VISIT TO LOOK AT AND ESTIMATE
FOR THE PROPOSED FELLING OF x1 FIELD MAPLE TREE.

ALTHOUGH THE TREE IS FLOURISHING, THERE IS
A LARGE AMOUNT OF ROT IN THE MAIN STEM.

THIS HAS POSSIBLY STARTED AT OLD WOUND POINTS.

THE ROT NOW IS SO AGGRESSIVE, THAT AT ONE
POINT YOU CAN ACTUALLY SEE DAYLIGHT THROUGH
THE STEM.

THE TREE IS SITUATED ON THE SOUTHERN BOUNDARY
OF THE ABOVE PROPERTY AND OVERHANGS A BUSY
FOOTPATH.

THERE ARE A NUMBER OF MATURE TREES ALONG THIS
BOUNDARY, BUT PLANTING A REPLACEMENT TREE IS AN
OPTION.

THE TREE IS DANGEROUS AND SHOULD BE FELLED.

Yours Sincerely
Holly.
