Dear Planning Officer,

I am writing regarding the redevelopment of 59 Elm Grove reference above.

We oppose the development as it is not in keeping with the rest of the road and the character of the road which is unusual in Barnham and should remain so. We have supported the planning application in Barnham Road on the old fruit farm as this is appropriate use of the land.

This development in Elm Grove does not conform to the Barnham and Eastergate local plan for which we voted and it will add to the flooding issues we have had in the road and which continues with regular tankers emptying the sewers over the winter.

Best wishes

Jeff and Barbara Lord
