

15/2/2015.

Dear Sirs,

Redevelopment of 59 Elm Grove.
EG/98/14 PL.

I have lived here for seven years
now and since buying the
property have had considerable
expense due to my toilet not
emptying correctly and rising
to the brim!!

It is more than obvious the
flow of drainage from the properties
in the Road is not successful. On
speaking to other residents they are
experiencing the same problems.

It is not feasible to build more
properties while this situation is
occurring.

I therefore oppose the plans that
have been applied for at No: 59.

Yours Sincerely
