Description of Proposed Works

Please describe the proposed works

Under emergency works, front of garage roof has been raised by 700mm (3400mm in total from ground level) in September 2024, sloping backwards to existing roof height of 2800mm.

Works has resolved drainage and roof leak issue to property and adjoining neighbouring property - roof required adjusting for more slope to stop water pooling. Works done in full consultation and approval with adjoining neighbours (no 6) and approved by East Preston Parish Council (see attached supporting documents).

Works has resolved neighbourly dispute issues including:

- Roof leak to both garages has been fixed (no 4 and no 5).
- Damp to front of property has been stopped (redirecting runoff away from old soak-away at front, redirecting to existing surface water drain to rear of property).

Note: the new roof benefits from a new Sustainable Drainage System (SuDs), with runoff from roof benefiting garden irrigation system, minimising local surface water flooding issues and benefiting biodiversity.

- Drainage trespassing onto neighbours' property has been stopped (further to approved utility extension in 2020 - planning ref: EP/78/20/HH) the utility roof was built higher than garage roof to comply with building regs, causing the aforementioned issues.

Details of the pre-application advice received

Advised to focus on Class B of the technical guidance - if the roof alterations falls within Class B, then the works are likely to fall within Permitted Development. However, following an unsuccessful Lawful Development application in September (ref: PP-13413967), I have been advised to submit a Retrospective application.

- (a) a member of staff
