With reference to planning application EP/123/25/HH

I have no objection to the proposal, but as I raised on the previous applications, I am concerned that is not clear from the published plan as to where the sewage will be connected.

I trust that it is not going to be connected via the present drain in 4 Beechlands Close, which is a shared sewage drain with my property 3 Beechlands Close. This shared drain has a history of blockages, when Southern Water have had to come and clear the blockage.

I would be grateful if you could advise on this question

Yours sincerely

Brian Akehurst.
