Dear Sir/Madam,

Town & Country Planning Act 1990 (as amended)
Town & Country Planning (Development Management Procedure) (England) Order 2015

Application No: EP/124/20/HH
Site Address: Little Dormers 23 Upper Drive East Preston BN16 1QN
Description of works: New bay and porch skirt roof to the front elevation, and roof linked detached double garage.

Thank you for your internet representation made on 26th November 2020 which has been recorded as an objection with the comments as follows:

OWPC31707

I object to the proposed garage and the first floor windows that overlook the bungalow at 59 Manor Road. Having been present to the applicants presentation to EP Parish Council Planning and Licensing Committee on the 23rd November, I would like to raise the ignored climate crisis issues. Good, healthy trees were cut down to allow for this proposed garage. Although this may seem minor in the grand scheme of the climate crisis, everyone should be doing everything possible to prevent this crisis. This is not a tree preservation area so there was nothing that could be done to stop this.

The applicants petitioned the support of the Parish Council on the basis their "classic" and "sporty" cars that don't fit into the existing garage. These cars release large amounts of pollution meaning they are significant contributors to the climate crisis.

The use of cars like these should be prevented not preserved within a huge structure which will ruin the landscape of the area that is already being destroyed by the emissions from the cars. Furthermore these cars cause significant noise pollution in the local area which affects local wildlife and people.

I believe their money would be better spent on an electric vehicle that would easily fit into their existing garage, this would have beneficial impacts on the environment.

Your views as made above will be considered before the application is determined.
