

Site Plan (1:200)

Notes;
- Proposed Soakway to be shallow positioned so that the base of the soakaway is above the winter peak groundwater level.
- Soakaway to be formed using geocellular soakaway system.
- Soakaway to provide a minimum 1m3 for every 20m2 of roof, exact soakaway size to be agreed with Building control.

All dimensions to be checked on site prior to commencement of work, except for planning purposes.
