

Notes:

1. All driving maneuvers are based on either:
   - Driver preference for least number of movements when leaving the car park
   - Driver preference to reverse park
2. In some instances more than 1 maneuvering configuration is possible. In such cases, driver preferences are taken into account.
3. Vehicle tracking paths are conservative. In real world conditions drivers will be able to maneuver with more ease.
4. Note that car park is gravel car park without raised kerbs, which will permit vehicles to maneuver across footways to permit parking.

Medium Sized Car with wing mirrors	
Overall Length	4.376m
Overall Width	1.857m
Overall Body Height	1.466m
Min Body Ground Clearance	0.228m
Max Track Width	1.591m
Lock to lock time	4.00s
Kerb to Kerb Turning Radius	5.042m
