Dear Sir/Madam,

I have known Mr. Phillip Steel for 30 years. During the break up of his first marriage Phil moved out of the family home into the Boat House. He continued to live there as his main residence. His children regularly stayed there with him and it became his recognised home. He then met and married Rachael. Phil and Rachael have regularly lived and slept at the Boat House over the last 4 to 5 years and live there permanently now. I regularly see them there, visit them there and enjoy social get-togethers there.
