TREE SURGERY REQUIRED

At the Vicarage, 33 Vicarage Lane, East Preston -- For the Diocese of Chichester.

Along the east side of the rear garden, starting from the house, stand the following trees:

Very mature Sycamore Approx 17m high.

Recommendation: Canopy uplift of 4m to allow more flow of light and to facilitate mowing of lawn.

Group of 6 Sycamores Average height approx 10m.

Recommendation: Fell the westerly tree to ground to allow for more light and space.

Remove lower limbs of next one back to trunk, and uplift canopy to 4m.

Fell to ground 2 with ivy on to avoid crowding (1 of which has no crown and no amenity value)

Fell to ground the one on the boundary with root plate movement, and growing over neighbour's property causing damage to their shed that it's leaning on.

ROB BLANN

TREE SERVICES LTD

Along the far end of the rear garden, from east to west, stand the following trees:

- 2 Sycamores Small, self sown, growing behind the Pine. Poor amenity value.
Recommendation: Fell to ground to avoid future pruning as they are growing over neighbour's garden.
- Sycamore Approx 11m high, twin stemmed.
Recommendation: Uplift canopy on north side to 4m.
- 2 Mature Limes Approx 20m high. Both overall crown reduced back to original reduction points in the past.
Recommendation: Overall crown reduction by up to 6m back to original crown reduction points, because they are becoming overgrown and overcrowded.

Along the west side of the rear garden, starting from the house, stand the following trees:

- Prunus Approx 8m high in very poor condition.
Recommendation: Fell to ground.
- Bay Recommendation: Uplift to 4m high by reshaping the canopy.
- Yew Recommendation: Uplift canopy to 2m high.
- Ash Approx 7m high, self sown. Signs of die-back and poor condition.
Recommendation: Fell to ground.
- Sycamore Approx 11m high, semi-mature in reasonable condition.
Recommendation: Uplift canopy to 4m high and cut out dead wood.
