CONCLUSIONS

PRINCIPLE

In this case, the key policies are deemed to be D DM1 and D DM4 of the Arun Local Plan. Additionally, Policy 1 and 2 of the East Preston Neighbourhood Development Plan.

Policy D DM1 sets out 13 design aspects of which applications should be assessed against. These include: Character, Appearance, Impact, Innovation, Adaptability, Crime Prevention, Trees, Public realm, Layout, Public Art, Density and Scale.

Policy D DM4 sets out criteria for which applications relating to extensions and alterations of existing buildings must be assessed against. They generally seek to minimise the impact of the proposal on the character of the host dwelling, its neighbours and the locality.

Policy 1 of the East Preston Neighbourhood Development Plan sets out general principles for development within the Parish. Part (i) relates to the scale, density, massing, height, landscape design, layout and materials of development proposals, and how proposals must reflect and enhance the established character of the area.

Policy 2 of the East Preston Neighbourhood Development Plan sets out the criteria for development within Character Area One. These ensure that proposals preserve the character of the street scene, and resist any increases in density that would alter this character. It also seeks to avoid apartment block development, and protect the view from the beach.

DESIGN AND VISUAL AMENITY

The proposed development is considered to result in a change in appearance to the host dwelling. However, this change is not necessarily considered to be harmful to the host dwelling. The front extension is considered to appear symmetrical, and sympathetic to the host dwelling.

The proposed rear extension is not considered to result in a significantly harmful impact upon the character of the host dwelling, or its locality. This is due to its siting at the rear of the host dwelling allowing for there to be no available views of the proposal from the public realm.

The application is considered to be in accordance with D DM1, D DM4(a) and (b) of the Arun Local Plan.

NEIGHBOURING RESIDENTIAL AMENITY

The proposed development is not considered to result in any significantly harmful impact upon the residential amenities of neighbouring dwellings, by way of overshadowing or overbearing impact. This is predominantly due to the modest scale of the proposed extensions, and their separation distance from neighbouring dwellings. With regard to loss of privacy, due to the single storey nature of the proposed extensions, they are not considered to provide any views that are currently unavailable from the host dwelling.

The application is considered to be in accordance with D DM1(3) and D DM4(c) of the Arun Local Plan.

SUMMARY

The proposed development is deemed to accord with relevant development plan policies and as such is recommended for approval subject to the following conditions.

HUMAN RIGHTS ACT

The Council in making a decision should be aware of and take into account any implications that may arise from the Human Rights Act 1998. Under the Act, it is unlawful for a public authority such as Arun District Council to act in a manner, which is incompatible with the European Convention on Human Rights.

Consideration has been specifically given to Article 8 (right to respect private and family life) and Article 1 of the First Protocol (protection of property). It is not considered that the recommendation for approval of the grant of permission in this case interferes unreasonably with any local residents' right to respect for their private and family life and home, except insofar as it is necessary to protect the rights and freedoms of others (in this case, the rights of the applicant). The Council is also permitted to control the use of property in accordance with the general interest and the recommendation for approval is considered to be a proportionate response to the submitted application based on the considerations set out in this report.

DUTY UNDER THE EQUALITIES ACT 2010

In assessing this proposal the following impacts have been identified upon those people with the following protected characteristics (age, disability, gender reassignment, marriage and civil partnership, pregnancy and maternity, race, religion or belief, sex or sexual orientation).

The proposal would have a neutral impact on the protected characteristics.
