Subject: My Mums Planning Application EP/166/21/HH

This Message originated outside your organization.

Hello Sian,

I trust this email finds you well and the new year has started in the best way. You may or not remember me but I got myself into hot water over a hard standing surface I wanted for a parking space outside my flat (10 Copse View, East Preston). It all ended well thankfully and permission was granted. The above application is for my Mums bungalow. Unfortunately my local council don't want to give permission for a small front porch to front of the building. It says its do do with the street scene being altered which is silly because if you look across to the bungalow opposite that was built with the shape my mum wants. Thats where we took our inspiration except that is a bedroom not a proposed porch. They were also worried about the building line. We have spoken to our neighbours and they can't see the problem.

I want to appeal to the human side of this build and not all the architects mumbo jumbo! The porch will not only mimic the bungalow opposite it will enhance my mums life greatly as she can sit in it when the sun swings round.

[REDACTED] I am paying for all of this as I will eventually move in with her to care for her at some point. I hope you don't mind me writing to you but I saw your name on some of the letters. I hope to hear from you.

Best Wishes

Sally Taylor
