2<sup>nd</sup> January 2020

Reference: Timberley, The Street, East Preston. BN16 1HU

Dear Sir or Madam,

Please find my form enclosed, for which my sister and I are trying to get some TPO's on the trees in the garden lifted.  
*Marked on the attached piece of paper.*

We have rented the property out since our father died, for which we have to be very safety conscious. The drive is getting very badly damaged, more so during the last very wet winters. To such an extent that in parts it has dropped a good 5 inches and is quite dangerous.  
*See photo's enclosed.*

The garage door has been ground down three times and keeps dropping as more and more rain falls.

I am enclosing the Structural Engineers report.

I hope that I have sent all the relevant information that is needed.

Yours sincerely,

Patricia Tilney (Miss)
