Dear Mr Denton

I've noticed a yellow planning application on the lamppost around Hillview Crescent with regard to the above application. Having looked at the plans I would like to express my horror at yet another loft conversion in the area and particularly this one because of the size and prominence of the property being on a corner plot. The visual effect coming into Hillview Crescent will be so detrimental to the rest of the Crescent, it will look horrendous, a carbuncle stuck on the end and once it's gone it will never be restored. The dormer will also effect 5 or 6 properties that will have to look out onto the monstrosity and then be overlooked. The idea of bungalows is that your not overlooked isn't it. I note with interest the Parish council continually have also put in objections to the development of this bungalow for which I totally agree with. I await your comments with interest.

Regards
