Dear Lauren

Just to clear things up. I apologise if you expected agreement between us on the plans before formally submitting them. This was done because we were on the cusp of issuing a refusal.

The intention for seeking to amend the proposal was principally to address the objections raised by senior management who were not in agreement of a recommendation to approve the report scheduled for 28 April Committee.

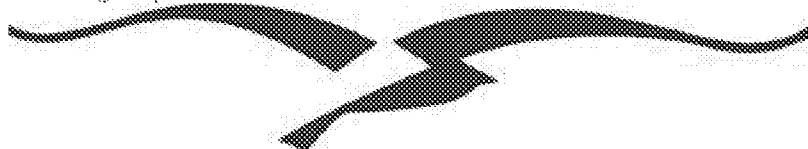

If East Preston PC still object to the revised plans I am hopeful that senior management will approve a recommendation to approve at the next available committee.

Dear Zoe

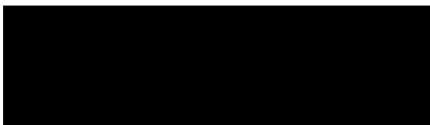

I was of the impression the amended scheme would be taken straight to Planning Committee hence my confusion/query.

I have been notified by the Parish Council that they have received notification of the re-consultation already. This concerns me as the revised drawing were issued for comment and we haven't agreed to the re-advertisement or extension of time as yet. I believe the Parish Council are likely to still object to the revised scheme as it hasn't addressed their comments. They didn't object to the rooflights or dormer which is leading the Applicant and myself to question whether we should have retained these features and tried to amend the scheme to address the parish councils objections. We didn't previously try to address their Objections as we had positive pre-application advice for the project and you were recommending the application for approval.

Will this scheme be taken to planning committee should we still receive objections from the Parish Council during the re-advertisement?

Kind regards

Lauren Willard

On Thu, 22 Apr 2021 at 15:24, Zoe Toppin <Zoe.Toppin@arun.gov.uk> wrote:

Dear Lauren,

The reason for the re-advertisement and re-consultation of this application is due to the change in proposal such as the removal of the dormer and reduced number of rooflights. Due to the number of original objections for this application on the plans which were first submitted it is necessary to inform them of the changes.

If the Parish Council raise no objection to these revised plans then this application will not need to be taken to committee.

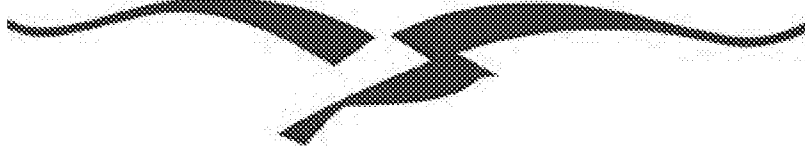

From the revised plans submitted I am happy with the proposal as it stands and will be waiting until the consultation period has expired before making a final decision on the application.

If you can confirm your acceptance of this EOT of 28/05/21 I can process this.

Many thanks

Dear Zoe, Juan

I understand that re-advertisement is down to offer discretion, I would be grateful if you can advise why you feel this needs to be re-advertised. I don't believe there were any objections raised that related to the changes we are making, except overlooking which we have addressed by raising the height of the roof lights and removing the dormer.

Please can you also confirm that you are happy with the revised scheme and that they address the concerns that were raised when looking to take this to Planning Committee?

Kind Regards

Lauren Willard

Dear Zoe and Juan

Please find attached amended drawings for your comments.

I have removed the dormer and reduced the number of roof lights. I have also reduced the size of the roof lights and positioned them so the cill of the roof lights are 1.7m from finished floor level so there is no overlooking. I have included a section to demonstrate the position of the roof lights.

I have reverted to a hipped roof at the rear of the building which is as per the pre-application advice scheme. I have done this in order to accommodate the staircase and still provide space for the two cars in the garage.

I hope these amendments are acceptable, however please do contact me if you have any queries .

Kind Regards

Lauren Willard

Essential maintenance is being carried out to the planning, building control and local land charges database during the week commencing 12 April 2021.

During this time there will be no public or staff access to any records held within this database, and it will not be possible to carry out any of the following tasks via the Arun website:

- Research planning and building control history
- View any planning applications, plans, agreements, tree preservation orders or competent persons data
- Submit building control applications
- Submit planning application comments
- Report any planning compliance issues

The publicity and consultation period for all planning applications that fall over this week will be extended by a further week to ensure no one is disadvantaged.

All other aspects of planning, building control and local land charges will be limited during this week and you are strongly advised to contact the individual departments before 12 April 2021 for specific restrictions during this time.

Dear Juan, Zoe

Further to your email below and subsequent telephone conversation. I have spoken with the applicant and we will be looking to amend the proposed plans as requested. As discussed on the phone we may want to revert to the roof as originally proposed on the pre-app (without the cat-slide) at the rear in order to accommodate the proposed staircase without the dormer.

I am away from work this week but will prepare and submit revised drawings early next week. I trust this is acceptable.

Kind Regards

Lauren Willard

Subject: Re: EP/16/21/PL

Dear Zoe and Juan

I have forwarded the emails on to the applicant and asked him to come back to me asap.

The dormer is proposed because it is required in order to position the staircase where we have and achieve sufficient head height over the staircase. Not being able to include a dormer significantly impacts the proposed scheme. In order to accommodate the two vehicles and staircase without it I will potentially need to

alter the proposed cat-slide roof at the rear or make the garage longer, both of which I'm sure the applicant or the neighbours will want.

With regard to potential use as residential accommodation, I have the following comments;

- The applicant intends for the remaining land behind the garage to become part of the garden to No.5 so there will be very little land associated with the garage.
- There will be no parking aside from that inside the garage.
- The first floor of the garage doesn't meet any internal space standards for residential use so if permission was applied for I believe it would be refused solely on inadequate space.
- There is no mains electricity, water or waste supply to the garage.
- Could a condition not be attached to the Planning Permission to ensure it isn't ever used for anything other than storage and garage space?

The pre-application advice we received prior to submitting this application didn't raise concerns over the dormer or number of roof lights proposed. The only comment was that any potential overlooking could be dealt with by obscuring the proposed windows. We purposely submitted the pre-application advice to ensure the proposal was acceptable including features such as the dormer.

Kind Regards

Lauren Willard

Subject: RE: EP/16/21/PL

Hi Lauren,

I hope you are well, I have left you a voicemail to explain the below.

There has been some issues raised from my manager regarding this application being taken to committee. The application currently could be seen by our members and councillors as potentially becoming a residential unit. Therefore, we have come to the conclusion that certain aspects of this application should be changed in order for it to be approved at committee.

There has been a condition added to this application to show the three windows on the side (east) elevation of the garage will be permanently obscurely glazed and fixed shut up to a height of 1.7m from the finished floor level in order to protect the private amenity to the neighbours at the east. Please can you provide a plan to show this with a cross section from the ground to 1.7m to show the windows will be obscurely glazed and fixed shut up to a height of 1.7m.

There has also been concerns of why a dormer would be necessary for a garage if it is to be used as storage. As a result, it would be necessary to remove the dormer to the garage for this proposal. Please provide amended plans to show the dormer has been removed.

The three windows on west elevation should also be removed from the proposal as the garage will be used for storage there is no necessary need for windows, this will also create amenity issues.

To confirm I will require amended plans to show:

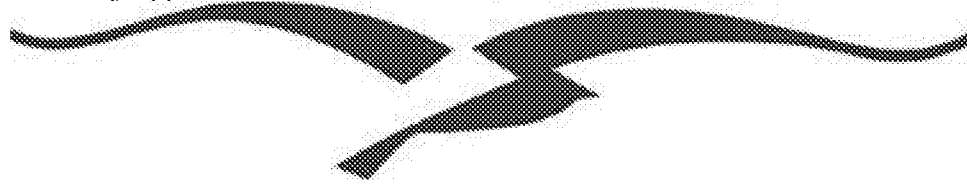

1. An amended plan for the east elevation to show the cross section from the ground to 1.7m to show the windows will be obscurely glazed and fixed shut up to a height of 1.7m.
2. An amended plan to show the dormer has been removed.
3. An amended plan for the west elevation to show the three windows to be removed from the proposal

I look forward to hearing from you.

Many thanks
