Hi Anita

Please see the revised drawings following comments from EPPC and WSCC. The dormers have been altered slightly, extra parking is demonstrated and the visibility splays drawn in.

The splays just result in the reduction of the majority of the front garden wall to 600mm high and probably the removal or severe trimming of the shrubs against it.

We are organising the surface water requirements although a basic design has been done.

Feel free to phone me if there are any other questions.

Regards,
Peter.
