
Objection to Planning Permission 15 The Plantation

I have lived in The Plantation for 3 years and was attracted to this private cul-de-sac by the beautifully maintained detached and semi-detached bungalows.

The proposed alterations to number 15 are very clearly out of keeping with the surrounding properties.

A five bedroom 'house' with substantial side gables, two significant dormers and seven velux windows is going to overshadow its neighbours.

Local councillors should visit to determine the effect on the area.

Thank you
