Dear Anita

Thank you for this additional information. I see that the CMP has now been provided in colour allowing me to identify the areas for wheel washing at the entrance. Areas for material/ plant storage, loading/unloading and the area for limited contractor parking within the site have not been identified. The LHA acknowledge the restraints of the site and consider that such areas will vary within the site during construction. The applicant is reminded that skips/ materials etc. should not be placed in the public highway and that if a skip was to be placed in the highway the appropriate licence would need to be obtained prior to this.

The plans and details pertaining to the condition are acceptable from a highway safety and capacity point of view.

Katie

Dear Anita

I see that WSCC has responded but didn't have a colour copy of the report online, which they have now requested. This is attached.

If you would like me to forward to WSCC directly I can do so if you provide me with the email address, otherwise I would be grateful if you could forward.

With thanks

Dear Anita

I note the 21 day consultation period has now completed and wondered if you had received any comments from highways or environmental health?

With thanks,

For and On behalf of Rocco Homes
