Dear Kathryn,

I am a little confused with this application, I note it is the same as the previous application last year which was to make the temporary development (due to Covid) to become a permanent fixture, which was refused, see copy below:

"The use of land hereby permitted shall be discontinued permanently and the land restored to its former condition, or to a condition to be agreed in writing by the Local Planning Authority, on or before the expiration of the period ending on 01 November 2021. Reason: The Local Planning Authority would not normally grant permission for such a development in this location but under the circumstances prevailing it is considered reasonable to make an exception in this instance and to allow the development for a limited period".

It also advised that if not happy with the decision for development not to be made permanent, then it would need to be taken up with the Secretary Of State, has this happened?

There are a several reasons why this would not be a desirable development not least those previously laid out by the Senior Environmental Health Officer.
