ARUN DISTRICT COUNCIL

- 6 MAY 2014

RECEIVED

R/C

Dear Sir,

We checked today at Arun District Council office re application above which as neighbours, we find O.K. BUT discovered to our dismay that, the "rear elevation and loft conversion to be built under permitted development" is to be carried out without any public consideration or debate, and will overlook both our neighbour's and our properties, 8 and 10 St. Mary's Drive, thus eliminating all privacy, the original reason for purchase. Mrs. Beckett assured us all a few months ago that any rear elevation would only involve 2 or 3 Velox windows in the existing roof, which we would have accepted - now there are to be 5 normal windows from a dormer elevation the entire length of the bungalow! The position of the 3 bungalows involved is unusual and surely some compromise could have been agreed if we had been consulted. We are shocked and very disappointed. What can be done?

Sincerely - G.D. & J.G. Tully.

Please
