POLICY COMMENTARY

The above policies combine to describe the criteria against which the application will be assessed particularly with regard to visual and residential amenity.

DEVELOPMENT PLAN AND/OR LEGISLATIVE BACKGROUND

Section 38(6) of the Planning and Compulsory Purchase Act 2004 states:-

"If regard is to be had to the development plan for the purpose of any determination to be made under the planning Acts the determination must be made in accordance with the plan unless material considerations indicate otherwise."

The proposal is considered to comply with relevant Development Plan policies in that it would have no materially adverse effect on the visual and residential amenities of the locality.

OTHER MATERIAL CONSIDERATIONS

It is considered that there are no other material considerations to warrant a decision otherwise than in accordance with the Development Plan and/or legislative background.

CONCLUSIONS

Sufficient distance is retained between the extensions and boundaries, so avoiding adverse overbearing and overshadowing effect. A certain amount of noise disturbance, overlooking and loss of privacy, would result from the balcony. However, it is an extension to an existing balcony and the majority of overlooking would be directed toward the front rather than rear amenity area, so any such impact, greater than currently experienced by neighbouring properties, would not be demonstrably adverse as to warrant refusal.

The extensions are visually integrated with the existing property. It is therefore recommended the planning application be approved, subject to the conditions set out overleaf.
