

Can this string of emails be downloaded please.

Thanks

5LF

Good morning Dan,

I have checked the size of the proposal and I calculate it at around 60.2 metres cubed in volume.

I believe the application should therefore be refused.

Thanks,

Zac

Hi

I don't know if you remember but i spoke to you the other day about EP/58/20/CLP.

I WFS'd it , but Juan wants you to check it also to see what total you get for volume of hip to gable and dormer. SEE EMAIL BELOW.

Fin checked it and got around 60m3
I got around 53.71m3

Once you have checked, please can you let Juan and Dan know so one of them can sign it off for refusal as I am now away until 29th June and so don't want it hanging around as the agent was chasing for it.

If you think It's okay then I will guess one of the team leaders can check.

Sorry and Thanks 🙏

Please note this information is given without prejudice and represents the informal view of the officer and not an official opinion of Arun District Council.

Thanks Amber. I'm off tomorrow.

Can Zac do one more check tomorrow and if he too finds it over dan can issue. Before he does can you please contact agent to say that its been triple checked by us before decision to refuse taken.

Hi

I have just WFS'd a CLP. It has time left on it but the agent was chasing for it.

It includes hip to gable extensions and a rear dormer. I have tried to calculate it and I believe it will be over 50m³. I asked Fin to look and he agreed although got around 60m³.

The agent has included calculations in the planning statement at 48m³.

I just write this email to advise its worth double checking as agents believes its okay and we've had differing figures.

Thanks
Amber
