Dear Mr Westcott,

The above application was discussed at the Parish Council meeting last night and deferred for comment until the next meeting on 23-02-2015. The Clerk has written to me to request clarification of the plans submitted. The block plan should include the proposed extension hatched on it, with a dimensioned distance to the east side boundary indicated. It should also refer to house numbers not plot numbers. Can this be corrected? The side elevations do not contain a reference to the direction they represent and would be easier to understand if this annotation could be included. The existing and proposed floor plans are rotated 180 degrees which has caused some confusion. Can one of them be re-orientated?

Without prejudice I would appreciate receipt of this additional information by 18-02-2015

Yours sincerely

Anita Gardner
