Dear Sir

90 North Lane East Preston. EP/60/19/HH.

With reference to the above planning application.

As I am affected by any building changes to the rear elevation of this address, will you please confirm to me the following points:

- that there will be no overall change to the height of the roof from the existing ground level.
- that the occupier will not change the original roof structure or raise the roof hip.
- that only dormer windows will be installed at the rear.
- that the occupier has no further

plans to change the rear structure or elevation of the building.

I look forward to your early written response on the points raised.

Yours faithfully
