Clerk to the East Preston Parish Council

25th May 2013

To whom it may concern

Nursery close; Beltane Close Development

It has been brought to my attention that there are proposed changes to the original agreed planning proposal for Beltane Close.

In the original design the development was 'open-plan', with a small wall entrance, in keeping with the East Preston village design statement.

It now appears that Regency style iron railings and a high electronic gate at the entrance to their site is being proposed.

I am writing to strongly object to this new proposal on the following grounds:

The electronic gates will add a delay to the already increased traffic flow in Nursery Close causing further congestion.

The design is not in keeping with the agreed East Preston style.

Kind Regards
