Dear Mr Shaw,

I have been allocated the above application and am carrying out the relevant consultations with other departments. However in the meantime I note that the information submitted with regard to discharge of conditions 8 -hard & soft landscaping and 10 - existing wall to south, lack sufficient detail at this stage. I will require confirmation of pot and plant sizes and plant numbers and details of replacement planting for the existing front border where the wall is being demolished and details of tree hedge retention and protection. For the walling the condition requires details

of method of demolition and rebuilding. I would suggest that photographs of the existing wall are provided as a reference point and that an elevation of the proposed replacement wall is provided to detail how existing bricks and flints will be reused together with the type of mortar and amount of protrusion of flintwork from cement.

I would appreciate receipt of this additional information within 10 days of the date of this e-mail.

Regards

Anita Gardner
