

5 Kithurst Cl, East Preston, Littlehampton BN16 2TQ

The trees in question are two mature Monterey Pine both in good health. The trees both have low hanging canopy's that in recent years that now cause the owner issues, the proposed work would be to crown lift both trees to 5 metres in height, this would provide better access beneath the trees and would also be pruning the low hanging branches clear of the adjacent building.

*New canopy
