Andrew,

I believe you are the planning officer dealing with this application. We note the consultation response that has been submitted by WSCC Highways and in particular their comments relating to the size of the garage for the proposed new dwelling. We have now adjusted the size of the garage to align with the preferred minimum size of 6.0 x 3.0m, and please find attached drawing 935P01B which shows this. This has also resulted in some minor internal alterations and adjustments to the positions of the windows on the north elevation. Can you please substitute this drawing for the previously submitted version.

Thank you,

Phil.
