7th August

Dear Mr. Cleveland,

I am writing to object to the planning application: EP/70/12.

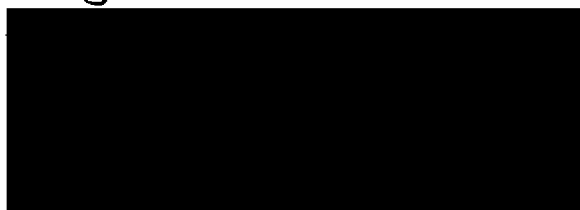

I am concerned about the noise and disruption which will be caused by the building works, and particularly the danger to the trees and shrubs bordering the narrow drive along which the lorries will have to pass.

I am also concerned about the increased height of Sandgate House if the alterations take place. Although the existing roof is to be replaced with a lower mono pitched roof, it is unclear whether the alterations to the first floor will result in a taller property

overall. If this is the case, it will blight the sea view of nearby properties, including mine.

I hope you will give due consideration to my concerns.

Yours sincerely,

Mrs. J. Amer
