Subject: EP/74/19/HH 2 Hillview Crescent (Objection)

Dear Mr Denton

I've noticed the yellow sign by the post box about the planning application at 2 Hillview Crescent and I am very concerned at the size and impact this will have on my property.

I live at 2 Chiltern Close, East Preston and my garden backs directly onto 2 Hillview Crescent's garden. Looking at the plans, the close proximity of both extensions will have a direct impact on me especially the huge dormer. This will take away my privacy which I currently enjoy as my garden will become totally overlooked. The dormer will be visible from my lounge, kitchen and garden and they will be able to look straight over my fence/hedge. This is not something I expected when I purchased the property. One of the reasons for choosing a bungalow was that the garden would be completely private and not overlooked by neighbouring properties.

Surely this application cannot be given permission as myself and my neighbours are all going to be badly affected. We must have rights to protection from this sort of over development.

Kind regards

Mrs Marian Wicks
