Subject: Planning application for fencing at 9 Pinewood Close

Mr. Shipway I have visited the site in connection with your application.

I note the property has the benefit of hedging and trees along the boundary in question and the application form advises that no trees or hedges will be removed as confirmed at sections 7 and 11. However the submitted plan indicates that the fencing will run along the boundary line which cannot happen without the removal of trees and hedges.

Please advise whether it is intended to run the fencing on the boundary thereby resulting in the loss of trees and hedges or that the fence is to be set into the site behind the line of existing growth. If the latter case you will need to submit a revised block plan (1:200) which clearly shows the fencing sited clear of the vegetation.

I await your comments.
