**RE: PLANNING APPLICATION ICIS BUILDING 35 WORTHING ROAD, EAST
PRESTON LITTLEHAMPTON BN16 1BQ EP/76/12**

Further to the submission of application above, we confirm that the change of use application would have no detrimental landscape impact.

We would however make one point of note that the 'low level' planting detailed to the frontage to soften the street frontage, should be species sufficiently low growing so as not to afford any sight line issues in the future.

We conclude that we have no objection to the details proposed.

SH
