

7 Meadow Park, East Preston, BN16 1EG.

Conversion of the existing garage to an annex (dependent on the main house).

Biodiversity Enhancement Statement .

7 Meadow Park is a detached house with a semi-detached garage to the front of the house and a drive that can accommodate 2 and more cars.

In this case there is very little opportunity for biodiversity enhancement as the works are primarily conversion of the existing garage and alterations to install windows and a door to replace the garage doors.

The garden is already landscaped and planted with a mix of shrubs, trees and flowering plants.

The applicant will install a bird box on the front elevation, under the eaves.
