Hello Laura,

Thank you for your prompt reply.

I can see now why the email did not come through thank you for explaining.

Please find attached a new drawing **DPA-05** and also drawing **DPA-04** that has been updated, please discard the previous one.

The attached drawing shows what the new fence will look like. Its a closed board timber fence to match the existing.

The height of the new fence will be **2.65m**

I hope you now have everything you need to validate the application.

kind regards,
Nat

Dear Mr Ellis,

Thank you for your email.

You were sent an email requesting further information on 18th August, however I had just gone into your application form and can see that the email address had a spelling error (which also would have pulled through to our database), which is why you have not received anything:

	Email address

Please see attached letter. For ease, the following information is required to validate:

Elevations

Please submit elevations of fencing to show material, style, and colour.

Fence Height

Please confirm the fence height for the description of the proposal.

Once I have received this, I will validate the application ASAP.

Kind regards,

Laura Mills
