Subject: Revision to objection Planning Application EP/7/18/PL

Good afternoon Anita, on my first page of objection I stated

"As an escape route it would require the unlocking of the inward opening gate at the end of the alleyway which has been closed to all since the mid-eighties, this to allow permanent egress/ access to anyone, as yet no detail has been provided as to how this could be controlled. The gate should open out not in and have an efficient controlled device to prevent it being left open for access by all and sundry, panic bars are designed for internal doors and do not close gates." ...

However it would seem the Landlord has pre-empted any planning decision by instructing his contractors this morning to install a new gate at the end of the disputed alleyway (which we are claiming by adverse possession.)

You will note from the photograph it is *not* as detailed in your previous email as it has a domestic (internal) Yale type key operated cylinder/latch.

It opens in and would not accept a panic bar.

This seems to be a pointless exercise under the circumstances but my statement obviously requires an amendment as I wouldn't wish to mislead anyone ,

Kind regards Laurence Pilfold
