Sewerage Department

Dear Sirs,

re Cottages / Apartments on land in front of Palm Court

We have just heard from our neighbours that the building site across from our cottage is planning to join the sewerage of 7 new abodes onto the sewerage for Palm Court Cottages. This is quite appalling news and We are writing in haste to most bitterly complain.

Our sewerage is pretty ancient in the first place... we have lids in our courtyards and in our case, we have had to have the plumbers out to sort out the drains. They very easily block up just coping with the Palm Court sewerage, and once the cause was a massive fat ball.

Please in your power, do not let this new settlement of houses share our drains. There could be all sorts of horrid things coming from the new houses/flats. We are very careful indeed with what we put down our drains.

Yours faithfully,
