Dear Mrs Willard,

I was looking at the plans for your application EP/98/17/CLP and I think one of the scales may appear wrong. At the top of your plan (drawing number – 1104.02.a) it states that the scale for the elevations is 1:100. This would mean the extension is over 6m high!

If it is incorrect then please reply to this email with an amended plan. (I feel as if the correct scale may be 1:50)

Yours sincerely,

Z Denton
