Objection

Dear Sir,

Having looked at the plan submitted by 23, West Drive, it would appear that the proposed extension, with a fairly large footprint, would cause some loss of light and also that of privacy to the dwelling in The Poplars on the boundary line of number 23.

I am concerned too that a large tree plus some hedging will have to be removed in the process of building. We are constantly urged to conserve trees and the local ecology. Please take this into consideration.

Yours faithfully

Mrs. N. Cummings
