Ms Willard: I would like to make a further point of objection to planning application FG/115 in its present form. In previous versions of the plan there was landscaping to the development which to some extent softened its impact on the neighbours. Now there appears to be none, and the tracked path for large vehicles shows them coming to within a metre of one of the houses. This is surely contrary to Policy GEN 7 (ii), which says that **Development will be permitted, provided it:**

(ii) **demonstrates that it responds positively to the identified characteristics and resources of the site and the area to create attractive places and spaces with the needs of people in mind and respects and enhances local distinctiveness;**

It is clear that this development does not demonstrate any of these requirements, and that the application should therefore be refused.
– Ed Miller (Secretary, Ferring Conservation Group)
