Dear Householder

We have received a complaint from a bus company stating that trees appearing to be coming from your property are damaging the tops of their busses.

It is the home-owners responsibility to make sure vegetation from their properties does not interfere with the highway user in any way.

Please can you arrange for the lower branches of the trees shown in the photograph enclosed to be significantly cut back, within 14 days to allow free flowing traffic.

Thank you for your cooperation with this matter.

Yours sincerely

 Matt Southern
Highways Steward
West Sussex County Council
